SUMMARY

Transitioning into cybersecurity after spending two decades as a golf professional, bringing a proven record of high-pressure decision-making, technical troubleshooting, and data-driven analysis. Currently completing the Fullstack Academy Cybersecurity Program with hands-on experience in Linux, networking, SIEM monitoring, threat detection, and system hardening. Motivated by building a stable future for my family while pursuing a field that challenges me daily.

CORE SKILLS

Cybersecurity & IT:

Threat Detection • Log Analysis • Incident Response Concepts • Vulnerability Assessment • Security Monitoring • TCP/IP • DNS • DHCP • Endpoint Security • Access Control • Splunk • Sentinel • Wireshark • Linux • Windows • Bash • PowerShell • Virtual Machines • ServiceNow • Jira

Certifications:

CompTIA Security + (In progress, expected August 2026)

Cisco Cybersecurity Certificate (March 2026)

Leadership Training IC PREP (August 2021)

EDUCATION

Fullstack Academy | Cybersecurity Certification Program

March 2026 - Present

- Completed 40+ hands-on labs in Linux, networking, SIEM monitoring, threat detection, and incident response.
- Performed log analysis on 1,000+ event samples, identifying anomalies and potential security issues.
- Built and managed multiple virtual machines for security testing and system hardening.
- Conducted packet analysis, access control configuration, and vulnerability scanning as part of capstone projects.

EXPERIENCE

Master Club Fitter | Cool Clubs | Irvine, CA

April 2025 - April 2026

- Diagnosed 200+ equipment and technology issues using launch monitors, sensors, and analytic software.
- Analyzed thousands of performance data to identify patterns and recommend solutions, contributing to \$150,000+ in club sales.
- Delivered clear technical explanations to 150+ clients, improving understanding and decision-making.
- Documented fittings, equipment specs, and customer preferences with 100% accuracy across all sessions.
- Collaborated with internal teams to resolve equipment, scheduling, and software issues, reducing delays and improving workflow efficiency.

Golf Professional | Santa Ana Country Club | Santa Ana, CA

October 2024 - April 2025

- Provide high-level customer support to 400+ members, including POS, booking software, and account troubleshooting.
- Managed daily operations for 100-200 players per day, supporting revenue flow of \$15,000 - \$25,000 daily.
- Trained 10+ staff member
- Documents service issues and escalated technical problems, improving resolution time by an estimated 20-30%.

1st Assistant Golf Professional / Operations Lead | Oak Creek Golf Club | Irvine, CA

June 2014 - November 2023

- Coordinated 200+ tournaments and events annually, supporting revenue streams exceeding \$5M+ per year.
- Troubleshooted hundreds of hardware/software issues across POS systems, scheduling platforms, and operational tools.

- Maintained detailed documentation of events, procedures, and customer interactions, supporting consistent operations.
- Facilitated cross-department communication to resolve operational and technical issues, improving workflow efficiency.
- Delivered instruction and coaching to 1000+ students, contributing to lessons revenue exceeding \$300,000+ over tenure.
